

In the year 1980 I began an exploratory study on the Islam for a couple of personal reasons. Primarily I was interested in the religion of Al Islam and secondly I wanted to determine as a result of my personal examination and investigation, if I believed in the authenticity of the Holy book, the Holy Quran. There are numerous claims made by proponents of the religion concerning the books perfection. Some of the assertions were that the holy book was produced & guarded from corruption by Allah (The God) HC:15:9; it could not be duplicated by man. HC: 2:23; and that the religion of Al Islam would dominate over all religions. HC: 61:9. In the time since my original interest in the religion, Al Islam has become practically like a beacon light to ships in the fog, due to the prominence of it in the media and newspapers in the twenty second century. Recognizing the fact that the religion of Al Islam is mainline conversation, particularly following 9/11, its prediction of it dominating other religions takes on an ominous shroud. This phenomenon along with its popularity combined to reignite my interest. What are the facts about Al Islam? I wanted to know expeditiously. Demographics tell us that Islam is the fastest growing religion in the world. Reviewing population demographics for Muslims, numerous independent studies are in fairly close agreement. Most major studies estimated a worldwide Muslim population for the year 2000 at roughly 1.25 billion people; that is, about one-fifth or 20 percent of the world's population. In comparison, Christianity was and is the largest religion in the world with about 33 percent of the world's population at that time.²
