

Are you tired of nagging or yelling at your kids with no result? Does your teen ignore or defy you? This Workbook/DVD kit allows you to sit in on classes where an experienced trainer will show you examples of typical parenting problems and how best to handle them with your children. Six class sessions, each about one-half hour long, are included. You will learn how to communicate clearly and how to use both positive and negative consequences with children to change their behavior. The scenes demonstrated on the DVD show you how to prevent problems by teaching children what they need to know, how to encourage positive behavior and respond effectively to children's misbehavior. It also demonstrates what you can do at home to help your child do well in school.
