

Excerpt from Text-Book to Kant, the Critique of Pure Reason: Aesthetic, Categories, Schematism, Translation; Reproduction, Commentary, Index With Biographical Sketch For such reason (indicated) it is, then, that this book is named, Text-book to Kant. The Translation has been executed with every care; and notes have been added in explanation or correction of the text. Existing translations have neither been now referred to, nor at any time, indeed, either used or read (those principally in vogue, however, having years ago been sufficiently consulted, legitimately to warrant a general judgment). It has been the aim of the Commentary to leave as few obstacles as possible between the reader and a full understanding of the transcendental system of Kant. Perhaps the very word transcendental may henceforth carry, in general, a somewhat saner sense than seems currently in use at present. In supplement both of translation and commentary (which, reasonably, are based on the second edition), pertinent extracts will be found to have been made from the first edition of the Critique of Pure Reason, as also from the Prolegomena, early pen-in-hand summaries, etc. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
